

**** Get OSHA Compliant ****

TAGLINE INSULATOR

The Original ALL Weather Insulator

NEW
Performance
Rating

- **40kV dry rating* 25kV All Weather rating****
- **Modular - Can be used in sequence to increase kV rating.**
- **All Weather design - Use in the Wet, Dirt, Snow & Ice**

**Rated
40 kV**

.....The Personal Defense System

Any tag line rope will conduct high voltage electricity if it becomes contaminated or wet. The TagLine Insulator® from Insulatus is the world's only insulating link specifically designed and manufactured for use in a tag line rope.

It is designed to protect ground crew and riggers working with elevated loads and using tag line ropes in close proximity to live power lines.....Use it in the wet, the dirt, the cold, anywhere.

The Tagline Insulator® will protect whatever the conditions....

TAGLINE INSULATOR

- Exceeds CPLSO 14 Standard
- ALL Weather Performance
- Use in Sequence to increase KV rating
- Designed for construction use.
- Become OSHA Compliant
- Lightweight & Portable

**Rated
40 kV**

SPECIFICATION FOR TAGLINE INSULATOR

Size & Dimensions

Safe Working Load	Not For Lifting
Pin Diameter	1"
Hole to Hole	8"
Weight	3lb

Specifications

Rated Operating Voltage - Dry	40kV
Rated Operating Voltage - Wet	25kV
Operating Temperature	-30°C to + 60°C
Lightning Strike	Not Lightning Proof

Designed for the job

The Tagline Insulator® is the only insulating link designed specifically for use in a tag line rope. It has the highest DRY & WET kV ratings in the market and has a rugged design that exceeds the requirements of the CPLSO 14 standard for insulating links.

Flexibility & Protection

The Tagline Insulator®, Guardianline®, Guardianline-plus® and the Tagconnector® kit complete a range of flexible products that can work individually or in numerous combinations to provide unparalleled protection for ground crew working near live power lines.

Personal Defense System

Advanced Polymer Shell.

Shockproof, Enviroproof, Freezeproof and Waterproof - The only Tagline Insulator designed to operate in the construction environment.

Assurance.

The Tagline Insulator® has the highest rating - 40kV - in the market. Increase the rating further by using it with our *Tagconnector kit*.

Unique Design.

Helps prevent contamination & surface tracking of high voltage electricity. If dropped the unit will not roll on the ground.
